

A woman with long brown hair in a ponytail, wearing a dark grey tank top, is running on a treadmill in a gym. She is smiling and looking to her left. In the background, a man in a blue t-shirt and several other women are also running on treadmills. The gym environment is bright and modern.

**WOODWAY®**

*For The Long Run®*

# THE WOODWAY DIFFERENCE

WOODWAY treadmills feature revolutionary technology that provides users with an experience unlike any other machine on the market. It's an amazingly advanced system, specifically designed to be easier on bones, joints, muscles and tendons.

A system so durable, it runs reliably year after year - yet it saves more energy than any other treadmill.

A system so comfortable, you can even run barefoot.

## SHOCK REDUCING

### SLAT BELT RUNNING SURFACE

Comprised of numerous individual shock-absorbing slats that have been scientifically proven to reduce harmful shock to joints, muscles and connective tissue. The running surface can absorb more than 150,000 miles of usage without a single belt change.

## NO-SLIP

### DRIVE PULLEYS & BELT

Designed to provide accurate speed, the toothed belt and drive together with numerous guide rollers assure the belt will not stretch or slip. No need to adjust or tension, ensuring consistent speed readouts with every workout.

## LOW FRICTION

### BALL BEARING TRANSPORTATION SYSTEM

Every treadmill features two bearing rails that allows the running surface to glide seamlessly along the frame, nearly eliminating friction and the resulting wear which leads to a longer life and significant electrical savings.

# 4FRONT

The 4Front is not just a treadmill; it is our commitment to providing the most innovative, longest lasting and the most comfortable treadmill available. 4Front represents everything we have learned and everything we aspire to be.

4Front is the next generation in a long line of products that feature exceptional comfort and the versatility of WOODWAY's patented Slat Belt running surface. The 4Front was designed to mimic the feel of running outdoors and to provide the user with a dynamic and low impact workout every time.

\* Optional Upgrades available

# CURV

Incorporate a new dimension into your training. The completely self-powered WOODWAY Curve Treadmill offers a one-of-a-kind workout experience that requires zero electricity.

Feel the freedom while running or walking on the unique curved running surface where you are the motor. The Curve Treadmill challenges the entire body while burning up to 30% more calories than a traditional motorized treadmill.

The Curve is the total solution for high speed and interval work as well as group training. High intensity intervals are made easy when there are no buttons to reach for to increase or decrease speed.

# MERCURY

The Mercury is the perfect space saver while still giving you every benefit of the full-size 4Front. Narrower in width, the Mercury will save you floor space and still deliver your members supreme comfort and natural movement without stress on the joints.

# PATH

The Path is a lot like the 4Front in that it has many of the same qualities and luxuries you've come to expect from a WOODWAY. Shorter in length, the Path will save you floor space while still delivering the same big results.
